SPRING BULL SALE

Thursday, May 6, 2021

1:00 MST At the Ranch in Hyattville, WY

OFFERING 100 YEARLING BULLS:
REGISTERED ANGUS AND SIM ANGUS

☑ BVD Negative ☑PAP Tested ☑Summered at 10,00 Ft. ☑ Carcass Ultrasounded

Welcome to our Annual Spring Bull Sale!

The fall and winter were exceptionally nice here and now spring is looking to be shaping up to be a good one also!
The good weather helps with the optimism as we enter into breeding season!
Our spring sale is just an extension of the bulls offered in the fall. These bulls are the other half of the bulls sold in the fall, no holdovers or resale bulls are in this sale!
With that said there are many stout calves with Trapper and Motive influence in this offering.
We also have a splash of the SimAngus calves left that we will be offering!
We are really looking forward to see the performance of these bulls in the future!
We hope everyone is still in need of some bulls ready to strut out and start breeding this spring!
We look forward to seeing you all May 6th!

As always thank you for your continued friendship and support of our program,

The Paint Rock Angus Crew

"For All Your Bull Buying Needs"

Welcome to the Annual Paint Rock Angus Spring Production Sale!
Ron Frye Marketing believes that bull buying is an essential part of any cattle operation. The genetics purchased each year are the building blocks for future generations of your cow herd. We are proud to be a part of this sale and the influence they have on their customers' programs through the years. We would hope that our knowledge of this sale offering would be beneficial to your quest of building a superior cow calf operation.
We are available to talk with you anytime and answer any questions you have about the cattle or the program. We look forward to assisting you and learning about your needs. Call us prior to the sale for any of your bull buying needs. If you are unable to attend the sale and need help purchasing bull(s) we would be happy to assist you in any way possible.
Thank you for your interest. Please come say hello to Randy or I on sale day.

Sincerely,

RON FRYE | MARKETING

GUARANTEE

All bulls will be covered 50% by Paint Rock Angus Ranch if they are injured during their first breeding season and unable to return to service during that first breeding season. Breeding season is defined as the 90-day period following the first turnout of the bulls. If a replacement bull is available, he will be provided. If a buyer prefers credit towards a bull in the following year's sale, 50% of the value of the injured bull, minus one-half salvage value will be given as credit. All injured bulls must be diagnosed by a veterinarian. Please notify us as soon as possible should injury occur and prior to the injured bull being sold for salvage. All claims must be made by September 1, 2021.

TERMS AND CONDITIONS

This sale is being conducted under the suggested terms and conditions adopted by the American Angus Association, effective March 16, 1992.

For the Desktop:

1. It is best to use the Google Chrome web browser.
2. Pre-Register at least one day prior to the sale.
3. Go to bid.northernlivestockvideo.com and click "Get Approved to Bid".
4. Doing this will prompt you to create an account, after which you will fill out a bidder approval application.
5. Once Approved, an email will be sent to the email account provided, please click the link in that email to activate your account and a buyer number will be provided.
6. On sale day (after approval), visit www.northernlivestockvideo.com to view and bid!

For the Mobile:

1. Use your mobile device to download the Northern App and follow the above steps to get approved.
2. There is an instructional video on how to register to bid on our website, www.northernlivestockvideo.com if you have any questions.

For technical assistance with Internet Viewing and Bidding Questions, call Sam Fraser 406-860-0590.

Phone Bidding:

1. Anyone wanting to use the Northern Livestock phone bank to bid must pre-register and have a bid number to bid on the phone.
2. To register with NLVA call 866-616-5035 Before Sale Day.
3. View the Online CATALOG and VIDEO CLIP of each bull selling at www.northernlivestockvideo.com.
4. Bidders who are successful in making purchases will be contacted following the sale to make payment and delivery arrangements.

Northern Livestock's Sale Day Bid Line: 1-406-245-0889.

Trapper has quickly risen to the ranks of Genex elite. He offers an outcross pedigree, moderate birth weight, adequate growth and maternal function. Look to Trapper to produce beautiful daughters with extra body capacity and fleshing ability. Plus his PAP score of 40 at 7,280' puts him in the top tier PAP EPD. Trapper also touts Genex 96 PregCheck 87%Rel.

Quick Reference to ASA EPDs and $ Indexes

Expected Progeny Differences (EPDs): EPDs are the most accurate and effective tool available for comparing genetic levels. In using EPDs, the difference between two sires' EPDs represents the unit difference expected in the performance of their progeny. For example, if sires A and B have EPDs of +10 and –5, a 15-unit difference would be expected in their progeny (moving from -5 to +10 yields 15 units). Key to using EPDs is knowing what units they are expressed in. For example, if the above case referred to weaning weight EPDs, A would be expected to sire 15-pounds more weaning weight than B. If calving ease were the trait, A would be expected to sire 15-percent more unassisted births in first-calf heifers; in other words, if B sired 30 assists in a group of 100 heifers, we'd expect A to require 15 assists. A percentile-ranking chart is required to determine where a bull's EPDs rank him relative to other bulls in the breed. For percentile rankings or more detailed information about EPDs and $ indexes visit www.simmental.org. Listed below are the units ASA EPDs are expressed in:

All-Purpose Index (API): Dollars per cow exposed under an all-purpose-sire scenario. (See below for more details.)
Back Fat (BF): Inches of backfat.
Birth Weight (BW): Pounds of birth weight.
Calving Ease (CE): Percent of unassisted births when used on heifers.
Carcass Weight (CW): Pounds of carcass weight.
Maternal Calving Ease (MCE): Percent of unassisted births in first-calving daughters.
Milk (MLK): Pounds of weaning weight due to milk.
Marbling (MRB): Marbling score.
Maternal Weaning Weight (MWW): Pounds of weaning weight due to milk and growth.
Ribeye Area (REA): Square inches of ribeye.
Warner-Bratzler Shear Force (WBSF): Pounds of force required to shear a steak.
Stayability (STAY): Percent of daughters remaining in the cowherd at 6 years of age.
Terminal Index (TI): Dollars per cow exposed under a terminal-sire scenario. (See below for more details.)
Weaning Weight (WW): Pounds of weaning weight.
Yearling Weight (YW): Pounds of yearling weight.
Yield Grade (YG): Yield grade score.

AMERICAN SIMMENTAL ASSOCIATION "HYBRID" SIMANGUS EPD AVERAGES

CED	BW	WW	YW	MILK	API	TI
12	0.5	74.1	114.4	22.5	127.72	

$ Indexes: Though EPDs allow for the comparison of genetic levels for many economically important traits, they only provide a piece of the economic puzzle. That's where $ indexes come in. Through well conceived, rigorous mathematical computation, $ indexes blend EPDs and economics to estimate an animal's overall impact on your bottom line. The same technology that led to the dramatic progress in swine, poultry and dairy genetics over the last several decades was used to develop the following $ indexes: **All-Purpose Index (API):** Evaluates sires for use on the entire cow herd (bred to both Angus first-calf heifers and mature cows) with the portion of their daughters required to maintain herd size retained and the remaining heifers and steers put on feed and sold grade and yield.
Terminal Index (TI): Evaluates sire for use on mature Angus cows with all offspring put on feed and sold grade and yield.
Using API and TI: First, determine which index to use; if you're keeping replacements use API, if not, TI. Then, just as with EPDs, zero in on the unit difference between bulls. (As described above, index units are in dollars per cow exposed.) The difference can be used to determine how much a bull is worth compared to another. Or, put another way, how much you can pay for one bull compared to another. For example, when buying an all-purpose-type sire, you can quickly figure a bull scoring +100 for API is worth an extra $6,000 over a +50 bull if both are exposed to 30 cows over 4 years ($50 diff. x 30 hd. x 4 yr. = $6,000). A percentile-ranking chart is required to determine where a bull's index value ranks him relative to other bulls in the breed. For percentile rankings or more detailed information about EPDs and $ indexes visit www.simmental.org.
